

CORPORATE SOCIAL RESPONSIBILITY POLICY

EDP Consulting Ltd provides a positive influence on our local community, the wider community, our clients, our employees and fellow professionals with whom we work.

We believe that we are accountable to all of the stakeholders identified above.

Local Community

We assist our local community where we are able to and offer support to our local educational establishments by providing work experience to their students.

We provide secure, good quality, fulfilling employment to staff living in the local and wider community

EDP Consulting Ltd assists local charities by making financial contributions and also supports national charities through our purchasing choices.

Environment

We minimise our impact on the environment by monitoring our activities, setting targets to reduce our consumption and reviewing the results of the monitoring process to ensure our targets are being met.

We review the following activities:

- Energy
- Recycling
- Purchasing
- Transport
- Education

We seek to reduce energy consumption, minimise carbon emissions and provide sustainable solutions in our designs.

Employees

EDP believe that our staff are our most valuable asset and we endeavour to provide a good, safe and positive working environment.

We look to adopt flexible working practice and positively encourage our employees to engage in further education and training to assist in progressing their careers.

As a business with a small number of staff we endeavour to create a family atmosphere within the office. We organise social events to provide an element of fun and to allow staff's families to engage with each other.

Clients

We believe in working closely with our clients to assist in achieving their own corporate responsibilities by providing designs that are cost effective, energy efficient and which incorporate low carbon and sustainable solutions.
